Allied Speciality Papers (India) Pvt Ltd  
Rajprabha Landmark Industrial Estate no.3,  
Gala No. 4 & 5, Bhoidapada, Sativali Road, Gokhivare,  
Vasai East - 401208, Palghar, Maharashtra, India.

### Chennai Branch

Allied Speciality Papers India Pvt Ltd,  
No-17, Masilamani Nagar,  
Kamrajar Salai, Manjambakkam,  
Madhvaram, Chennai-600060.

# ABOUT US

Allied Papers began its journey in Mumbai in 2004. Its core business was Import and distribution of speciality paper and it strived to provide ultimate solutions of special grade, copier paper, thermal and carbonless paper in the country. In the year 2007, we established our first manufacturing unit for Thermal, carbonless and Food grade barrier coated products in Palghar, Maharashtra of 400 metric tonne paper coating line per month. We then forward integrated into HOT MELT Label Stock manufacturing in 2017.

This Label coating line in Vasai, Maharashtra is installed with modern hotmelt coating line from UK, it has a combination of Rotating bar and Slot die to provide efficient label stock. The unit also incorporates an online coat weight monitoring system of NDC Technologies along with a high moisture application system to increase adhesive strength.

# OUR STRENGTH

PRODUCT INNOVATION

EFFICIENT MANUFACTURING

HIGH INTEGRITY

# OUR VISION

Provide uncompromised unilateral Label stock which resonates with the wants of the market and drives customization.

# OUR MISSION

Our Mission is to produce Supreme grade Label stock with our state of art machinery. To provide the convertors undivided support to fulfill the demand-oriented label market.

### **SEMI GLOSS**

'This Paper is machine coated to create a smooth semi-Gloss finish that helps provide excellent printable and die cut ability 'There are highly recommended for products which need labels that are print friendly and beautifies the design, which are water resistant and are durable 'Labels for categories like personal care, food and beverages etc.

### **POLYESTER**

A semi glossy top coated film suitable for Flexo and Offset printing High durability quality and good for labels where resistance to water oil and chemical is required Labels categories like Drum, PET packages and containers etc.

## **OUR PRODUCTS**

### **POLYPROPYLENE**

A biaxially Oriented, white glossy film, suitable for Flexo and offset printing Recommended for label applications where resistance to water, oil and chemical is needed.

### **SYNTHETIC**

A biaxially oriented polypropylene, white glossy. The label is highly durable and weatherproofing from variety of outdoor and hard environment. Its flexible and tear resistant.

# SHERRY

**THE FUTURE OF  
SUSTAINABLE PACKAGING SOLUTIONS**

## ABOUT US

Beginning its journey in 1985, Sherry has evolved from the production of coated paper to specializing in Carbonless Paper, Thermal paper & siliconized release paper.

Moving on with the ideals of sustainable development, Sherry offers poly-free barrier coating solutions for packaging.

### OUR VISION

Committed to a poly-free packaging future.

### OUR MISSION

Innovative approaches for a poly-free packaging world.

# OUR PRODUCTS

*Emphasizing eco-friendly products for the better future of our home. By using our products, you support a better and more sustainable environment as our motto is poly-free packaging with paper.*

It is our responsibility to support sustainability and to rethink the usage of products made from materials that cause severe damage to our environment. We are pioneers in paper products ranging from oil and grease resistant paper, water repellent paper, heat-sealable paper, other barrier coated papers, and anti-microbial paper.

## SUSTAINABLE RANGE

### OGR PAPER

Barrier solutions for oil and grease protect the structural integrity and appearance of the designed packaging by preventing the greasy contents of the contained food or consumer good product from migrating through the paper or paperboard.

#### BENEFITS INCLUDE:

Excellent heat sealability

Food contact compliance

Hot block resistance

Repulpability

### HEAT-SEALABLE PAPER

The coated flexible packaging paper with a heat-sealable reverse side, which cohibits properties of MVTR, OGR, and OTR, can be easily used on existing packaging lines and can be recycled.

## OTHER PRODUCT LINES

### CARBONLESS PAPER

Carbonless Paper is designed with a coating to help transfer information written on it to the papers beneath it. It is the modern version of the outdated, and often messy carbon paper options that used to be the standard for making duplicates.

### THERMAL PAPER

Thermal paper is unavoidable in many areas of our daily lives: checkout receipts and price labels in supermarkets, parcel labels in logistics centers – almost anywhere, where information has to be printed out quickly and economically. We supply finishers and laminators with our thermal paper globally, and they turn into checkout rolls, self-adhesive labels, and tickets of every conceivable kind.

### ANTIMICROBIAL PAPER

Our antimicrobial paper utilizes ion technology that inhibits the growth of bacteria without sacrificing paper performance or appearance. Silver is an element found naturally in the environment and has long been regarded as a versatile antimicrobial agent. The silver ions interact with microorganisms and help prevent their growth, loss of energy production and avoid DNA replication and new cell formation even on paper!

# AFTI

AXIS FINE TAPES INDUSTRIES

## ABOUT US

AFTP is a leading company that specializes in the production of "Pressure Sensitive Self Adhesive Industrial Tapes". Its promoters have extensive experience in the field of various types of Self Adhesive Papers. The company is equipped with state-of-the-art manufacturing facilities located near Mumbai in Palghar District, Vasai.

Discover the comprehensive range of surface protection tapes and guard films that offer complete solutions for all your needs.

# OUR PRODUCTS

- Kraft paper tape (Printed/Non printed)
- Marking Tape
- DS Tissue tape
- DS Foam tape
- Polyester tape (high temp. resist)
- Cross filament Tapes
- Red Void & temper proof tape
- Green/Yellow/Red floor marking tape
- VHB Tape
- HDPE fabric Tape  
(Green,Blue,Yellow,Red,White)  
with linear & linear less
- Acetate cloth tape
- Glass cloth Tape
- Marble protection film
- GI Protection film
- Steel Protection film
- Aluminium protection film
- Foam tape
- PCR-PET Tape
- PCR -BOPP tape
- TPT Polyester/color polyester/  
Green Polyester Tape

- Bio based Tape
- DS Acrylic-Tape Heat Resistance
- Removable double coated Tape  
(High Strength Non Wovenfabric)
- PEt based light shielding /Reflective  
double coated tape
- Medical tape
- Surface Saver tape for Ophthalmic Lens
- PVC Tape
- Double Sided Polyester Tape
- Non-Woven Surgical Tape
