

FIBC/CONSTRUCTION BAG

PRODUCT DESCRIPTION

- A flexible intermediate bulk container (FIBC), jumbo bag, bulk bag, or tonne bag is an industrial container made of flexible fabric that is designed for storing and transporting dry flowable products. Shish is one of the leading manufacturers and suppliers of a range of PP and FIBC bags, including standard FIBC bags, 4 Panel bags, U Panel bags, baffle bags, ventilated bags, one-two loop bags, FIBC bags for food and pharmaceuticals, PP woven sacks, laminated-unlaminated woven bags.
- The polypropylene film layer that is laminated onto coated FIBCs serves as a moisture barrier, a dust barrier, and a weave stabiliser.
- Uncoated FIBCs are produced without a layer of lamination, in contrast to coated bags, which normally have one. Their weaving pattern allows air to travel through.
- We offer high-quality FIBC bags that can be customised to meet your needs.

STANDARD TYPES :

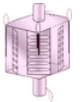

Standard Bag

Circular Bag

Tunnel Lift Bag

Baffle Bag

U Panel Bag

Full Loop Bag

Conductive Bag

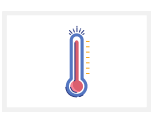

Dissipative Bag

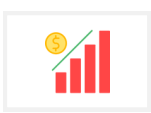

FEATURES & BENEFITS

Light weight and easy to transport

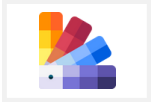

heat and chemical resistance

Highly economical

High Tensile strength and durability

Multi-Color

Safeguard the products very well

Specifications

Property	Description
SWL Range	500 kg to 2000 kg.
SF Option	5:1 / 6:1 / 7:1
Lifting Option	One loop, Two loop, Four loop, Tunnel loop. Loops made from PP loop (standard loops), PP Multifilament loops (for soft loops) PP fibrillated loops (for semi soft loops) available in various designs & colours.
Filling Option	Filling spout, Skirt (duffle top), Flap, Iris (Pyjama/Bonout), Star closer (Pattle closer).
Discharge Option	Discharge spout, Skirt (duffle), Flap, Iris (Pyjama/Bonout), Star closer (Pattle closer) & Conical
Liner	With or without liner. Liner comes in Loose, Glued, Tabbed, Stitched Liners, Suspended liners and form fit/ shape liners.
Printing Options	Printed (up to 4 colour) and unprinted.
Sewing Options	Hiracle & safety, double chain with or without dustproof
Sewing Thread/Webbing	In various colours including blue, black, green and red. All Colours defined by Pantone system
Document Pockets	Ziplock - In various sizes and materials including transparent PE and transparent PP. Also available in self closing type.
Fabric	Flat woven or tubular woven fabric with Coated or uncoated.
Extrusion	We produce 600 kgs per hour of PP tapes of various GSM and Strengths. We have the Beta gauge machines which continuously checks the size and the denier of the tape.
Looms	High speed circular looms to produce quality fabric of any width and GSM.
Belt Weaving	Needle loom Machine for Loop and Dust proof making.
Lamination	Extrusion Coating Plant for fabrics lamination (width 2.2 meters).
Testing Lab	We have latest equipment of Tensile Testing, Elongation Testing, UV Testing, Load Test, Dart Impact Test, COF Testing & RIG Test to ensure Tape, Belt, Fabrics and bag quality.

***We can customize the size and GSM to your specifications.**

These are normal settings and are not intended to be restrictive specifications.
