

WORLDCLASS LABELLING MACHINES

ABOUT US

Worldpack: The Preferred Gateway for Automatic Labelling Systems.

Worldpack is one of the most trusted solution providers in designing and manufacturing of self-adhesive labelling machines with a dynamic and talented core team with over 25 years' experience in manufacturing, engineering, designing and customer service at the helm spearheading this young company to newer avenues and are always hungry for innovations and reaching newer heights.

Our machines are engineered to ensure ease in operating whilst being efficient, reliable, easy to maintain and cost effective.

We have a state-of-the-art infrastructure that comprises of cutting-edge technology machines, equipments and other amenities helping us in carrying out all the operations with perfection and ease. The entire range is manufactured in accordance with industry guidelines to ensure durability and quality.

We have a varied client portfolio across multiple industry segments – Liquor, Beverages, Dairy, Food, FMCG, Personal care/ Cosmetics, Pharmaceutical, Edible oil, Lube oil and Agrochemicals.

OUR PARTNERS

OUR ADVANTAGE

ONE STOP SOLUTION

We are a one stop shop for all your automatic labelling needs since our core focus is on providing cuttingedge automatic labelling solutions.

UNICORN

We have installed over 3000 automatic labelling machines in India and over 25 countries globally making us the fastest growing player in the labelling industry.

EXPERTISE

Our company is young and driven with the core team having over 25+ years' experience across engineering, product designing and customer support for automatic labelling solutions. Our labelling machines have gained overwhelming acceptance in India and the international markets.

INFRASTRUCTURE

Our state-of-the-art infrastructure at Navi Mumbai is a testament of our professionalism and dedication to provide world-class products and services to our customers.

NATIONWIDE AFTER SALES AND SERVICE NETWORK

We have a national sales and service network, which enables us to serve our customers effectively with minimal turnaround time.

RELIABILITY

Our minimal downtime and robust products has made us the preferred choice for automatic labelling machines in India as well as internationally.

HIGHLIGHTS

- Independent motorization for all labeling stages making it user and maintenance friendly
- Multiple labeling heads can be added in a single machine to apply 1 to 4 labels on bottles/jars, etc
- Three axis adjustable labelling heads to apply label on flat/ oval/tapered bottles/jars
- Easy to set ultrasonic label sensor for paper and film
- Servo system options like Allen-Bradley, Panasonic, Siemens, Mitsubishi and BNR are available in labelling head for machine
- Complete machine is controlled through encoder with touch screen

- Safety guard feature for pharma, liquor and FMCG industries is also available
- Patented labelling head
- Heavy structure and sturdy frame make the labelling head vibration free
- Password protected in HMI
- Labelling accuracy is ±1mm
- Labelling speed varies from 60 to 800 BPM
- Option of servo or stepper motors
- US FDA 21 CFR Part 11 compliance machines can be provided

LABEL DISPENSER MACHINE

CUSTOMISED SOLUTIONS

PAN CARD APPLICATION

We offer customised labelling solutions for Hologram Application on PAN Cards with great accuracy. The machine can apply holograms on different matrix of PAN cards like 8x3 and 5x5, etc. The machine applies holograms with speeds of 15 to 20 sheets per minute depending on the matrix used. The machine completely eliminates tilted holograms caused due to manual application. Multiple labelling heads can be used depending on the PAN card matrix.

PROMO PACK APPLICATION

We offer customised labelling solutions for Promo Pack bundling with PS label used to promote Freebies like Buy 1 Get 1 Free, etc. The machine can apply promo labels on similar or dissimilar products for example pouch with pouch/monocarton with pouch/monocartons with monocartons. The machine applies labels with speeds of 30 to 40 packs per minute depending on the product and label sizes. The machine ensures proper promo bundles with PS label application at good speeds. Multiple pack sizes can be used in the same machine with change parts.

ROTARY LABELLING MACHINE

TECHNICAL SPECIFICATIONS

SPEED	MAX 240BPM
ROLL O.D.	CORE DIA 76 MM & OUTER DIA 300 MM
LABEL MATERIAL	CHROMO PAPER / PP / PE
LABEL DIMESIONS	H:50 TO 100MM AND L:160-295MM
MOC	SS304, ALUMINIUM
POWER SUPPLY/ CONSUMPTION	440V, 50HZ, 3 PHASE / 6.5 KW
NO. OF STAIONS	16
OPERATING SYSTEM	SERVO PLC WITH TOUCH SCREEN
DISPLAY	HMI- TOUCH SCREEN
WEIGHT	1700KG
CONVEYOR	L 3000 MM AND W 114 MM
OPTIONAL	EXTENSION CONVEYOR

STANDARD FEATURES

Safety cabinet with interlocks

3 level password protection

Synchroized VFD's for single point control

7" colour touch screen for easy accessibility

Upto 3 labelling heads

Adjustable labelling head and easy to adjust for registered labelling

OPTIONAL FEATURES

Electrical panel door interlock

Toppled bottle detection system

Jamming sensors

Lubrication alarm on HMI

In feed and out feed safety guards on conveyor

Safety interlocks with safety relays

BOPP LABELING MACHINE (ROLL- FED HOT MELT GLUE LABELLER)

STANDARD FEATURES

Servo driven, PLC, encoders and optical sensors

User friendly HMI

Precise label cutting and gluing

Safety cover and emergency stops for bottle falling & clogging

High accuracy of ±1.0mm to 1.5mm

OPTIONAL FEATURES

Web guider system for stable label feeding and precise label positioning on vaccum drum
