SpaceSense

BLACK BOX

Redefine Enterprise Workspaces

FUTURE-READY CONNECTED WORKSPACES

RE-IMAGINE ENTERPRISES

CONNECTED WORKSPACES USING SPACESENSE IOT PLATFORM FROM BLACK BOX

The modular Wireless Sensor kits monitor the ambient conditions of any space 24/7. Remotely monitor critical metrics of each workspace throughout the enterprise on a single screen. Ideal for all enterprises including Retail Chains, Classrooms, Pathology Labs, Clinics, and Meeting Rooms.

Features

- Monitors air quality index
- Detects door openings and closings
- Monitors room, hall, and desk occupancy
- Checks temperature and humidity levels
- Activates emergency alerts through SOS buttons
- Automates employee attendance reporting
- Tracks footfalls and visitor counts
- Notifies security via an audible alarm

Benefits

- Save significant costs with actionable data insights on **occupancy**, **energy usage,** and **business continuity**
- Radically improve people experience through sensor-based insights on **environment** and **safety**
- Enhance business process **efficiency** of your workspace through cloud analytics and automated alerts

SpaceSense Kits

Smart Sensors

Smart Wireless Sensors, designed, developed and manufactured by Black Box, acquire precision condition data and transmit it wirelessly to the Cloud IoT platform.

SpaceSense App & Web

Cloud-based IoT platform with intuitive dashboard and customizable emergency alerts monitors enterprise locations in multiple facilities and any georgraphy.

Easy To Setup & Customize

Set up any location in just 10 minutes. Drag-and-drop to customize your CXO dashboard. Works with mobile apps for immediate actionable alerts and emergencies.
